

## INCUBATOR RACE AT CHICKEN SHOW

Artificial Mother That Hatches  
Flock First to Be Awarded  
Gold Medal.

CHICKEN "400" ON HAND  
OVER 1,000 FOWLS ARE ON EXHIBITION.

A race between artificial mother hens will be held at the nineteenth annual exhibition of the State Poultry association, which will be opened to the public Wednesday at 48 East Second South street. The artificial mothers are chicken incubators and the one which hatches its flock first will be awarded a gold medal.

Most of the entries in the show arrived yesterday and were in place last evening. The show will be devoted to the judging, which is being done by D. F. Helmich, who has been awarded a gold medal for his artificial mother hen. The show is being held at the same place as the last year, and the prize winners will be approximately designated by blue, red and white ribbons.

Over 1,000 birds are on exhibition and the display is the largest ever seen in this section of the country. The show is being held at the same place as the last year, and the prize winners will be approximately designated by blue, red and white ribbons.

Principal Disturber.  
The principal disturber is a large Rhode Island Red rooster, the property of Orson F. Hewitt of Salt Lake. This creature seems to take exceeding great pride in the fact that he was awarded a blue ribbon for the last exhibition, and the way in which he bids defiance to the new-comers would indicate that he has high hopes of similar honors this year.

One of the most interesting of the exhibits consists of 150 pigeons, including all the varieties found in these parts. A brace of Mongolian pheasants can also be seen.

The association has started a movement to secure \$5,000 to aid in promoting chicken culture in the state. A bill probably will be introduced this year.

James Crawford, arrested Saturday night by Policeman Earl Ripley on a charge of assaulting little Helen Cannon, daughter of Dr. W. T. Cannon, near her home at Fourth East and First South streets, was allowed to plead guilty to a charge of drunkenness in police court yesterday afternoon and was fined \$10 by Judge C. B. Diehl.

The charge of drunkenness was the third charge placed against Crawford. He was originally charged with criminal battery, and this was afterwards changed to battery, and finally it was reduced to drunkenness. The parents of the little girl were reluctant about having her appear in court to give the requisite evidence necessary to convict the man of the serious offense with which he was originally charged.

In police court City Prosecutor Daly stated the facts to the court and said that it was because of the crime against the little girl that the arrest was made. The court apparently did not take judicial cognizance of the original charge against the man, and imposed a fine of \$10 in view of the fact that Crawford had been in police court before on a charge of drunkenness.

CHINAMAN IS RELEASED.  
Proprietor of "Hop Joint" Escapes Without Punishment.

Judge C. B. Diehl in police court yesterday afternoon declined to impose any penalty in the case of Jim Dolly, the Chinaman convicted of maintaining an opium den in Plum alley.

He stated several reasons for not imposing any penalty, saying that he took into consideration the fact that the Chinaman of that district was all more or less addicted to the use of the drug, and that they apparently considered they had a right to "hit the pipe." He said that in this case there was no doubt that a white man had been smoking in the den, but that the testimony was to the effect that he was not a friend of the Chinaman and there was nothing to show that there was any promiscuous opium smoking going on in the place.

METEOROLOGICAL REPORT  
Yesterday's Record at the Local Office of the Weather Bureau.

Maximum temperature, 24 degrees; minimum temperature, 17 degrees; mean temperature, 25 degrees, which is normal; accumulated excess of temperature since the first of the month, 88 degrees; accumulated excess of temperature since Jan. 1, 1906, 1,200 degrees. Relative humidity, 75 at 10 a. m.; total precipitation from Jan. 1 to 10 a. m., none; accumulated excess of precipitation since Jan. 1, 37 inch.

There are many ways of relieving catarrh. There is only one way of curing it: restore to perfect health the affected membranes.

Scott's Emulsion cures catarrh because it makes rich blood and fat and heals the affected parts.

Which shall it be—relief or cure?

All druggists, 50c. and \$1.00.

## ARTIFICIAL MOTHER AGAINST DURAND

Bellion Seeks to Prohibit Justice from Enforcing Judgment.

JURISDICTION IS ATTACKED  
LATEST PROTEST FROM MURRAY'S KANGAROO COURT.

William Bellion filed suit in the district court yesterday asking that a writ of prohibition be issued against Charles F. Durand, a justice of the peace at Murray, who has become notorious during the time he had held office, by reason of a number of suits filed against him, in which he is charged with gross irregularities.

Bellion alleges that on Feb. 14, 1904, Daniel Densley, Jr., began suit against him before the Murray justice of the peace for the Murray estate. Bellion says that he appeared in court and filed a general denial of the allegations set forth in the complaint and in March of the same year the case came up for trial before a jury. The jury returned a verdict for the defendant, McOmie, he declares, refused to enter the judgment rendered by the jury, as required by the statutes. Bellion alleges that by this action the justice of the peace forfeited jurisdiction of the case.

Densley then, according to the complaint, turned the account over to one Francis G. Laine, for collection. Laine filed a motion for a new trial and this was ordered by McOmie, and the case was set for April 30, 1906. During the case McOmie as justice of the peace in that precinct and on Sept. 16, 1906, Durand pretended to try the case again, and gave judgment to the plaintiff in the sum of \$200.25, with interest and costs.

Bellion declares that this judgment is void as the case is not and never was in Durand's jurisdiction.

"Laine has harassed my petitioner," he says, "in respect to said judgment, and has threatened to enforce the same by process issued by Durand unless this petitioner make prompt payment, which threats if put into execution will greatly damage and prejudice my petitioner in respect to his property." He concludes by asking for a writ of prohibition to be directed against Durand.

COURT RECORD.  
New Suits.

8,854—William Bellion vs. Charles F. Durand. Petition for writ of prohibition.

8,855—Pabst Brewing company vs. John R. O'Neill, to recover on promissory note.

8,856—Fred V. Herditsky vs. Laura M. Herditsky. Divorce.

Judge Armstrong.

1,640—Salt Lake City vs. R. S. Webb, assault and battery. Verdict for defendant.

1,577—State of Utah vs. Alfred Bell, forgery. Continued to Jan. 28, 1907.

8,390—Nora E. George vs. Edward E. George, order to show cause. Continued without date.

Judge Lewis.

7,604—William J. Cooper vs. Utah Light & Railway company, damages, personal injuries. Jury sworn, trial begins.

Judge Ritchie.

7,825—Jesse Gesas vs. Oregon Short Railroad company, damages, personal injuries. Defendant's motion for nonsuit taken under advisement.

DICK WELLS FREED.  
Nevada Prospector Has Returned to the Gold Fields.

On motion of City Prosecutor P. J. Daly, the charge of vagrancy against Dick Wells, the Nevada prospector, was dismissed by Judge Diehl in police court yesterday. Wells was arrested at the instigation of a saloonkeeper, who said that the mining man had been hanging around his saloon and begging for drinks. When the case came up a week ago it was continued until today, and the defendant was released on his own recognizance. It is understood that he has gone to Nevada.

SIXTY DAYS FOR NON-SUPPORT.  
J. Joseph, who was convicted some time ago for failing to provide for the support of his minor children, was sentenced to sixty days' imprisonment in the county jail by Judge Dana T. Smith.

CAUSES ARREST OF HUSBAND.  
Wallace Halliday was arrested yesterday by Deputy Sheriff Emery and Saturday afternoon on a complaint sworn to by his wife charging him with failing to support his children.

Court Notes.  
Before Judge Marshall Monday, plea in the case of Alex. H. Tarbet against Lillian L. Munn was overruled.

In the case of John Mackey against the Utah Consolidated Mining company and others exceptions were overruled by Judge Marshall.

John Bodgen was adjudged insane yesterday before Judge Armstrong in the district court, and was ordered committed to the state mental hospital at Provo for treatment.

In the case of the Western Pacific Railway company against A. Dunbar and in the case of George Hainberg against the United States Smelting company, demurrers were overruled by Judge Marshall Monday.

Motion to strike out portions of the complaint of James Speis against the Consolidated Mercantile Gold Mining company was sustained in part by Judge Marshall. Twenty days was given the plaintiff to amend his complaint.

In the case of Joseph H. Sissam against the United States Smelting company, demurrer was sustained in the fourth and fifth counts and in the other counts was overruled. The defendant was given twenty days to amend his complaint.

Fred V. Herditsky filed suit in the district court yesterday asking for a divorce from Lillian M. Herditsky. The ground that she has been committed to the state mental hospital, where she has been since April 14, 1905, and is hopelessly insane.

## LOW GRADE LINE IS COMPLETED

Rails All Laid Eight Hours Before Time Limit Is Reached.

BINGHAM - GARFIELD ROAD  
MANY OBSTACLES OVERCOME IN BRIEF PERIOD.

(Special to The Herald.)  
Bingham, Jan. 21.—With shouts from the workmen and the blowing of whistles the last spike was driven on the Bingham Low Grade line at 4:10 o'clock this afternoon, thus marking the completion of the most remarkable feat of railroad engineering. The contract called for the rails to be laid by midnight, Jan. 21, and when the rail-layers started to work this morning there was a 5,100-foot gap between the two forces. Every elevation on the line perceived the necessity of pushing the job to completion.

Though the ballasting is not yet finished, the road is in shape to put in commission immediately. Work began May 1, 1906, the road was built at a cost of \$1,000,000. It covers a distance of fourteen and one-half miles in length from Garfield Junction to the upper terminus, with a 2 1/2 per cent compensated grade.

Grade Is Remarkable.  
This feature is most remarkable. Compared with the old road, which has a grade of 4 per cent, and at its terminus is over 1,000 feet lower than the new road at this point. Here is the story of how Uncle Sam came to set up Y. M. C. A. branches for his men on the isthmus, as modestly told by Mr. Thompson.

Y. M. C. A. Is Selected.  
Some months ago Secretary of War Taft, United States Minister to Panama, and Chief Engineer Wallace met at luncheon in Panama. As a result of their discussion of the needs of skilled workmen on the isthmus, they decided that the organization best qualified to give assistance was the Young Men's Christian association. Accordingly, they cabled the international committee at New York to send a man to study conditions and make recommendations.

"After twenty-four days' investigation, I outlined that I thought could be done for the betterment of the government employees, and where it should be done. Four very prominent men volunteered to become a directing committee for the Y. M. C. A. work as contemplated. They were General George W. Davis, governor of the canal zone; United States Minister John Barrett; Chief Engineer John F. Wallace and Colonel William C. Gorgas, head of the sanitary commission.

Offers De Lesseps' Palace.  
Governor Davis said that after extensive travel he was convinced that the organization best fitted to render the service needed by the government was the Y. M. C. A. In view of the fact that the isthmus is only fifty miles wide, this provided excellent facilities for Uncle Sam's workmen.

The result of the government's decision is already set in the plans for the first building and one secretary on the field."

AMUSEMENTS  
A good natured audience went out of the Orpheum last evening, and indeed a good natured audience sat through the longest program ever presented at that house. But to the audience it did not seem too long, for each number was about the right thing as vaudeville numbers ever get to be.

From the musical stunt of "Little Gladys," with two more of her kind, to the end of the kindred there were few dull moments. The headliner, "Pals," was somewhat of a disappointment, not because it was well done and all that could be made of the piece, but because it changed a farcical, roaring bit of humor into a one-act drama, with all the elements of a tragedy. And at that it left a bad taste in the end, in spite of the fact that the audience was well pleased with the skillful wrestling material shown.

The other comedy sketch demonstrated the fact that a comedy sketch needs have no action nor idea dominating it, indeed, that it needs nothing at all but to be a success except two very clever, bright people, and these are supplied in John Hyams and Lella McIntyre. Indeed, it was the hard to determine which is the leader, so well do both do everything that comes in their way. Miss McIntyre comes pretty close to being the best child actor seen this season, and she brings with her distinct ability a face and figure and a personality which add greatly to her part.

Happy Jack Gardner with his musical monologue is good, and Mazur and Mazur are worth seeing in their acrobatic comedy work. Neola, the juggler, is good also, but this class of work has been so well done here that it is hard to show new tricks. The show goes all week, with matinees each day.

In arranging for the revival of "She Stoops to Conquer," which is to be seen at the Salt Lake theatre Thursday night, Charles Frohman and Liebler & Co. did not confine themselves to looking over the American field for the players to suit the managers, but cast their nets over the English stage as well. In selecting George Giddens for the part of Tony Lumpkin, the managers were undoubtedly impressed with the fact that this actor, who is a great favorite in London, has the reputation of being the best character comedian on the English stage. So great a bit did he make as Tony Lumpkin in the London revival of Goldsmith's comedy that it would be a very brave actor who would attempt to follow him in the part while the memory of his performance is still fresh in the public mind. Mr. Giddens is a man who has accomplished much and stands very high in the estimation of the critics. He has starred in "Public Opinion," a play which Mr. Frohman proposes to give in this country. Though "Public Opinion" was a great go in England, and in it Mr. Giddens starred successfully through the provinces. The actor's work has not been entirely confined to England, however. Under the management of the Williamsons he has starred through Australia with great success, and following Mr. Crane and Miss Jeffreys, is easily the most important member of the organization that is instilling new life into Goldsmith's old play.

The sale of seats opens today.

The Wolfe Stock company, which returned to the Grand on Sunday evening, opening "The Bachelors' Engagement," have become established favorites in Salt Lake. This was evidenced by the audience which

## U. S. GOVERNMENT INDORSES Y. M. C. A.

Branches Established in Canal Zone for Benefit of Employees.

THOMPSON TELLS OF IT  
WILL SPEAK IN SALT LAKE WEDNESDAY EVENING.

A man with a large stock of interesting facts is to give an address to the general public tomorrow at 8 o'clock, Wednesday evening, at the Y. M. C. A. The gentleman is J. R. Thompson of New York, the man who was sent to the Panama canal zone at the request of the United States government to study the needs of the men employed and recommend a plan for their assistance in this tropical climate. Before returning he visited the scene of Dreyfus' exile on Devil's island, and the ruins of the destroyed city of St. Pierre on Martinique. He also made an extended yacht cruise up the Amazon river. The scenes and conditions under his travel will be the subject of his address which will be free to the public.

Mr. Thompson has had the honor of playing a part in the greatest public compliment and endorsement ever given to the Young Men's Christian association movement. Here is the story of how Uncle Sam came to set up Y. M. C. A. branches for his men on the isthmus, as modestly told by Mr. Thompson.

Y. M. C. A. Is Selected.

## What Would You Pay for a Beautiful Figure? Or, Having a Good Figure, Would You Give the Price of a Corset to Retain It?

"They Lace In Front"  
Ours Is the Best Corset in the World—The Reason Why Is Plain

The single fact that they lace in front makes them superior to all other corsets—the principle of construction is right—right for grace, right for health, right for style. They represent the finest workmanship in the world, the highest art, the deepest science and the best materials. They will give you a better shape than you have ever had and the correct foundation for a well-fitting gown. They are the only corsets that positively reduce the figure of the stout woman without the slightest discomfort—IN FACT, THEY PRODUCE COMFORT.

There is not a figure wearing a laced back corset that we cannot improve with one of our models. In giving you style, we do not mean that "something indefinable" so often referred to. Our style means an erect carriage, a correct proportion, a trim appearance, something you can see, something that anyone will recognize as style. Economical women will find that one Gossard Lace Front Corset at \$5.00 is actually cheaper than five ordinary corsets at \$8.00.

## No. 412 Wins the Haviland China Dinner Set at Dinwoodey's

Some people evidently don't care for \$75.00 Dinner Sets, even if they are Haviland Sets. We have advertised the winning numbers, but so far no one has turned up with the lucky ticket. This week No. 412 has the chance. If 412 does not claim it by January 28, then No. 659 gets it and has one week in which to claim it. Other numbers in their order are 701, 72, 369 and 200.
